

To
The Friendship Cup

The Indian community in south Florida has watched the Friendship Cup matches with great interest. The enthusiasm and spirit of the various teams competing for the Friendship Cup is contagious. It is wonderful to see this “National Sport” of India being promoted in south Florida with such passion and fervor.

It has also generated substantial interest in the Maharashtrian community, especially the young adults, who will hopefully participate in future matches.

I would like to wish all the teams and the finalists the very best as they race towards the trophy.

I look forward to being there for the finals on March 28, 2010

May the best team win.

Sincerely

Nitin Vaidya
